Las Vegas, NV - May 21, 2024: Hexagon Agility, a global leader in clean fuel solutions for commercial vehicles, and Brudeli Green Mobility (Brudeli), the Norwegian electric transmission technology company, today announced a collaboration aimed at disrupting the Class 7 and 8 North American truck market.

Agility has invested in TVP Solar and is introducing the technology to commercial and industrial customers, says Steve Lubrano, CEO of Alternative Energy Solutions, an Agility affiliate. Lubrano says the solar-thermal system ...

Green energy is created with zero carbon emissions, providing the highest net environmental benefit. Why is green energy cheaper? In short, because it's naturally-occurring and sustainable. And, after decades of development, we now have smarter, more cost-effective technology with which to harness and store green energy. Is green energy ...

Recently, we had the honour of hosting the Minister of Energy, Terje Lien Aasland (AP), for a symbolic inauguration of our latest projects. Reflecting on his own beginnings as an apprentice as a energy fitter, the Minister emphasised the importance of increasing the respect for skilled workers and the critical importance of raising the status of working operators ...

They use at least 20% less energy or water than conventionally built buildings, making them more affordable to operate and reducing their environmental impact. EDGE is the first green building certification system of its kind that is available globally, covering both residential and commercial building types.

Powering Burundi with clean, sustainable, and reliable energy while empowering the local workforce. 147 MW Solar Power Plant: Powering Growth, Fuelling Development Doubling Burundi's energy capacity with reliable, renewable solar energy.

Air conditioning is expensive and drains a lot of energy, especially in the Middle East. "Agility is looking for new air conditioning solutions, and it is a priority because of the extreme heat," Saab says. It's too early to say there's a direct, viable alternative to conventional air conditioning, but Agility is finding green workarounds.
