Is a solar hat a good idea?

The hat is designed to be worn for long periods without feeling like you've got a mini solar farm on your head. Early reviews from IFA attendees suggest that it's surprisingly comfortable,even with the embedded solar panel. The wide brim offers decent sun protection while giving the solar panel enough surface area to be effective.

The EcoFlow Power Hat is also foldable, even though it's full of hidden solar panels. This integrated technology sits a bit far from the folds so that users can bend and stash the hat whenever ...
