Which generator should I buy?

Our top pick is the DuroMax Electric-Start Generator, which provides a high power level and has five built-in outlets, making it powerful enough to power appliances like your refrigerator or washer/dryer. You can also read our comprehensive generator buying guide to learn more about the most important factors for buying a generator.

How do I safely use my home generator?

Here are some critical steps you should take to ensure that you're using your home generator safely: Don't operate a gas generator in an enclosed area, such as a garage or shed, as this can lead to carbon monoxide buildup. Use a fuel stabilizer when you're storing gasoline for an extended period of time, as destabilized gas can be a fire hazard.

How much does a home Generator cost?

Typically, home generators cost anywhere from around \$500 for small models that can power a few appliances to over \$1,500 for larger devices that can re-power your entire home. To help you select the best home generator for your needs, the This Old House Reviews Team put together this guide of the top home generators on the market.
