

Ballard power system North Korea

What is Ballard Power Systems?

Ballard Power Systems' (NASDAQ: BLDP;TSX: BLDP) vision is to deliver fuel cell power for a sustainable planet. Ballard zero-emission PEM fuel cells are enabling electrification of mobility,including buses,commercial trucks,trains,marine vessels,and stationary power. To learn more about Ballard,please visit

What is Ballard's partnership with Doosan fuel cell & hyaxiom?

Doosan Fuel Cell and HyAxiom's hydrogen fuel cell vehicleofferings will integrate Ballard's core PEM technology in its powertrain. This agreement brings together global leading companies to collaborate on a turn-key solution for mobility customers including the development,manufacturing and sale of PEM hydrogen fuel cells vehicles.

Why should you choose Ballard's fuel cell power products?

Benefitting from our vertical integration - ranging from Membrane Electrode Assembly (MEA),bipolar plates and stack design to complete system integration - Ballard's fuel cell power products deliver proven durability,reliability,and high power density with the lowest total cost of ownership. Explore our fuel cell products.

Is Ballard Power Systems a good news company?

Ballard Power Systems has a news sentiment score of 0.48. This score is calculated as an average of sentiment of articles about the company over the last seven days and ranges from 2 (good news) to -2 (bad news). This news sentiment score is similar to the average news sentiment of Computer and Technology companies.

How many MW of fuel cell products does Ballard manufacture?

Ballard has designed and shipped over 400 MWof fuel cell products to date. Ballard was founded in 1979 by geophysicist Geoffrey Ballard,Keith Prater,and Paul Howard,under the name Ballard Research Inc. to conduct research and development on high-energy lithium batteries.

What time Will Ballard Power Systems hold a conference call?

VANCOUVER,CANADA - Ballard Power Systems (NASDAQ: BLDP; TSX: BLDP) will hold a conference call on Tuesday,November 5th,2024 at 8:00 a.m.... Begin your journey towards sustainable energy solutions by scheduling a consultation with our knowledgeable fuel cell experts--let's discuss how we can drive your project forward together.
