

Belarus wolong energy storage

What is Wolong energy storage?

Wolong's energy storage production base in Shaoxing, China, opened in August 2023. The facility has a planned medium-term annual production capacity of 10GWh. Improve the AGC frequency regulation performance of the unit, enhance the availability and service life of thermal power units, and build an intelligent power grid.

Is Wolong a new engine for energy storage?

become a new engine for energy storage in the world. Wolong's energy storage production base in Shaoxing, China, opened in August 2023. The facility has a planned medium-term annual production capacity of 10GWh.

What is Wolong's new manufacturing base?

Wolong's new 130,000 square meter manufacturing base will achieve a mid-term annual output of 10GWh with additional capacity added from energy storage production lines at our overseas locations. We believe in providing products and solutions that ensure the long-term success of our customers and contribute to the overall health of our planet.
