As the cost of traditional energy sources continues to rise, renewable energy is an attractive option for many businesses. Solar power is a renewable resource that is abundantly available in Belize. In this article, we'll discuss the benefits of solar energy and ...

I believe the idea of a no-battery system is that during the day you power your house with solar, and in the night through the grid. However, during the day, you also sell surplus generated power to the power company (through net metering) which offsets the cost of the power that you buy from them during the night. So you end up with a net zero ...
