Who is Bermuda Engineering Company Limited?

Bermuda Engineering Company Limited was founded in 1935 by Gordon Hamilton Burland, a Bermudian renewable energy pioneer and engineer. Back then, he built the first clean energy microgrid in Bermuda and demonstrated bold energy leadership for his time. In 2010 the company was reinvigorated and has been operating as BE Solar since.

What is MasTec?

MasTec is a leading provider of solar energy facility construction and power-system integration services. They serve government, corporate, and residential clients across the country.

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

Who is solar energy design & maintenance?

MasTec designs, builds, expands, and maintains efficient, cost-effective solar energy facilities from the ground up.

Bermuda is quickly turning to alternative sources of energy to meet the growing demand for electricity. The government and several private companies being the forefront of this renewed effort. Solar power is one of the alternative sources of energy being utilized. The energy is generated directly from sunlight using specially built solar photovoltaic systems that
