

What is the Bess consortium?

The BESS Consortium is a multi-stakeholder partnership set up to ensure these BESS benefits transform energy systems across low- and middle-income countries (LMICs). The Consortium is on track to meet its target of securing 5 GW of BESS commitments by the end of 2024 and deploying these by the end of 2027.

Why is Barbados partnering with the Bess consortium?

Barbados is committed to playing a leading role in urging concrete deliverables on climate and climate financing. We are here with the BESS Consortium today because we support their efforts to improve access to battery energy storage systems as part of the energy transition in countries like ours.

How long does a Bess project take?

Most BESS projects in the pipeline in Sweden are 1-hour systems, with the business case still very much centred around ancillary service markets. Upstream battery projects in Sweden and Norway.

Which Nordic countries are deploying Bess batteries in 2024?

BESS deployments in the Nordics. Source: LCP Delta STOREtrack. Sweden, however, has both a more developed residential storage sector and a bigger pipeline of grid-scale batteries than the rest of the Nordic countries put together, with around 400MW announced for operations in 2024 alone.

Where is ADB implementing Bess projects?

ADB is implementing BESS projects across Asia and the Pacific, from small-scale projects in the Maldives, Philippines, and Pacific Islands, to large-scale projects in Cambodia, Thailand, and Mongolia.

In this excerpt from the Foundations of BESS course, industry expert Drew Lebowitz examines the critical design elements of a 50MW/200MWh installation using an instructional scale model. Tune into the first part of his BESS model tour in the video below to learn more about modular AC block architecture to create scalable storage solutions.

The four sites in central-southern Italy are being called the "Black BESS" project and will be completed by the first half of 2024. Alongside three other groups of projects, called Green, Blue and Yellow BESS, the project will contribute to Altea Green Power's 2GW BESS portfolio in Italy.
