With scalable lithium battery storage that ranges up to 400 kWh per system--and the capability to implement projects in the MWh area--this system ensures a reliable, long-lasting power supply for diverse operational needs.

All BOS systems have identical connection points for solar photovoltaic (Solar PV) panels and AC loads. It takes hardly a few hours to set up the BOS system one for hybrid solar power, which makes them suitable for large scale installation and fast and easy maintenance. Thanks to its modular design, components can be adapted to any requirements.
