Where are the biggest Floating photovoltaic projects under development in East Asia?

Two of the biggest floating photovoltaic projects under development in East Asia are on seawater, but in sheltered locations. On Taiwan's west coast, the 320-megawatt Changbin-Lunwei solar power station is taking shape in a cove.

Could offshore solar power be a game-changer for small island states?

According to Vicky Lin--a project coordinator at Blue21, a Dutch company involved in various floating urban projects--finding ways to tap the massive potential for offshore solar power generation could lead to huge growth in the FPV industry. Progress in this area could also be a game-changer for small island states.

Is NTPC floating solar plant in Ramagundam fully operational?
