

Canadian Solar Battery Energy Storage Cabinet Price List

How much does a Canadian Solar EP Cube cost?

Let's take a closer look at everything Canadian Solar's EP Cube has to offer. The EP Cube has a built-in inverter and is modular, meaning homeowners can choose how much storage capacity they need up to 19.9 kWh. Our solar experts estimate the EP Cube battery costs \$15,200 before incentives, just below the industry average cost.

Does Canadian Solar offer a backup battery?

Canadian Solar offers the EP Cube Lite, which comes at a lower price point and does not have backup capabilities but is designed to maximize energy savings in areas with time of use rates. The EP Cube has an excellent battery warranty, with 80% capacity retention after 10 years or 6,000 cycles, whichever comes first.

How much does it cost to install a Canadian Solar battery?

Our experts estimate that a 16.6 kWh Canadian Solar EP Cube solar battery installation would cost about \$15,200, including installation costs. The total cost of installing a Canadian Solar battery will vary depending on the size and installer you choose.

Does Canadian Solar have a good battery warranty?

The EP Cube has an excellent battery warranty, with 80% capacity retention after 10 years or 6,000 cycles, whichever comes first. The EP Cube has solid operating features, a great warranty, and is being offered by a trusted company. Canadian Solar has two versions of its battery system: the EP Cube and the EP Cube light.

What kind of battery does a Canadian Solar EP Cube use?

Plus, the EP Cube is a lithium iron phosphate battery, which means the battery is safer and will last longer than other types of lithium-ion batteries. It can also be integrated with a gas-powered generator for an added layer of backup protection. Canadian Solar is offering an excellent warranty for its battery system.

What are the best solar batteries in 2024?

The brand's energy storage offering, the EP Cube, is just as impressive, landing the number three spot in our best solar batteries of 2024 ranking. The EP Cube energy storage system can store up to 19.9 kilowatt-hours of energy, comes with an integrated inverter, and can be installed with or without solar.
