Will Bhutan be able to power a temple without electricity?

Fortunately, Bhutan already has a solution underway. They're building small-scale hydroelectric generation capacity—an example of a Distributed Energy Resource (DER)—near the temple (and out of view). Upon completion, the temple will be able to operate independent of the country's electricity grid.

Together, we are building 5000 MW of clean energy capacity that will help harness Bhutan's hydropower potential and support both countries' growing energy demands with reliable and ...
