

EPEVER offers lighting controls systems, that combine a PWM / MPPT solar charge controlling algorithm, with LED constant current driver option. This brings the opportunity to perform multiple light control modes. These controllers are ...

⌋ For Single Inverter/Charger Connection: ⌋ Recommended battery wire and breaker sizes are specified for each model, such as the UC3522-1250P20 and HP5542-AH1050P20SA, requiring a 35 mm2/2AWG wire with a 2P--200A circuit breaker. Other models like the HP3541-AH0625P65A need a 20mm2/4AWG wire with a 2P--125A circuit breaker. ...

Tracer-AN (50A-100A) series is the largest charge controller series in EPEVER's product range and can take up to 5KW solar panel. For even more power, the user can use PAL-ADP-50N to connect max. 6 units of a controller in parallel for up to 30KW system. The multiple dry contact signals are designed for a diversified application.

EPEVER-DataSheet-HP Series 65A. Download File. Product Highlights. High IP65 protection rating, suitable for harsh outdoor environments: salt spray and humidity. Pure sine wave output. AC output supports parallel operation of multiple units (configurable for single-phase or three-phase), expandable up to 12 times the system capacity.

info@epever XTRA-N G3/XTRA-N G3 BLE series controllers, based on a new design concept, adopt the solar charge controller as the main component. A built-in Bluetooth module is a must for the XTRA-N G3 BLE series, which helps the end-users read and write parameters by phone APP conveniently.

Introducing the KP Series Inverter/Charger, a reliable inverter charger engineered to deliver dependable power from 3500 to 5500 watts for a broad range of applications, including residential backup and off-grid energy systems.

Boost your energy storage potential with EPEVER's cutting-edge 12.8V 200Ah Lithium Battery. Crafted with high-grade prismatic LiFePO4 cells, this powerhouse guarantees over 4000 cycles at 80% Depth of Discharge (DOD), ensuring unwavering performance in diverse applications. Monitor state-of-charge (SOC), voltage, temperature, and receive real ...

We are thrilled to announce the launch of our latest innovation, the upgraded XTRA-N G3 Series MPPT Solar Charge Controller. Building upon the success of our XTRA series, the XTRA-N G3 is designed to revolutionize your solar system experience.. Discover the Difference. With built-in Bluetooth connectivity, stable voltage output, energy-efficient ...

Embark on a journey toward efficient power utilization with our latest innovation, the HP Series 20SA inverter/charger. Engineered to capture, convert, and manage energy optimally, this upgraded device is a game-changer in the realm of power solutions.

With built-in Bluetooth connectivity, the Tracer-CPN allows seamless parameter monitoring and modification through the EPEVER APP, eliminating the need for an additional Bluetooth module. The device also incorporates a secure Modbus communication protocol with a waterproof RS485 interface at 5V DC for reliable communication and enhanced protection.

EPEVER-Manual-UC/UCP(C) Download File. Product Highlights. Applicable for pure off-grid / backup power / self-consumption. PV input voltage range: 80Vdc-500Vdc. PV input current up to 32A. Supports battery mode & non-battery mode. Battery & PV reverse polarity protection. Dual pure sine wave output.
