

When looking for alternative ways to go solar, other than giving your landlord a call and talking through an installation on your apartment building or home, community solar (also known as roofless solar, solar gardens, or shared solar) is an excellent option for you to consider if you aren't a homeowner. A community solar project is a large, central solar power plant ...

Applying solar panels into the house may be a wise choice for owners to achieve energy independence. And there are actually a few ways you can solar power your apartment or condo --- even if you don't have a suitable roof or a willing landlord. 1: Join a community solar project Community solar projects are large

NYC-based company, Grouphug, sells a bamboo-framed Window Solar Charger, which you can simply hang in your window using an included suction hook. The small solar panels will absorb the sun's energy, and you can directly plug any USB charger into it, whether it's for your cell phone, smart watch, AirPods, or bluetooth speakers; the company ...
