

An ambitious target for the country where energy storage has yet to soar--due to a lack of regulation for the technology--at a similar level to solar PV. In the past 12 months, the country has launched and awarded several auctions for energy storage, including its first tender for energy storage to be co-located with renewable power. Through ...

The energy storage portion of the project is 1.2GWh and will be co-located with a solar plant. The energy storage containers will begin shipping in 2023, with commercial operation expected in 2024. "This project will help position Microvast as a leader in the utility-scale energy storage market while reducing carbon emissions and assisting ...

A panel discussion on the Polish market at the recent Energy Storage Summit CEE in Warsaw. Image: Solar Media . The European Commission (EC) has approved a EUR1.2 billion (US\$1.32 billion) state aid ...

Energy-Storage.news hears from the CEO of American Energy Storage Innovations (AESI), about its BESS technology, battery cell strategy, manufacturing in East Asia and the "shocking" price of manufacturing in the US and buying US-made cells. Flow battery player Invinity claims new product can enable "solar baseload" for the grid ...

Energy-Storage.news hears from the CEO of American Energy Storage Innovations (AESI), about its BESS technology, battery cell strategy, manufacturing in East Asia and the "shocking" price of manufacturing in the US and buying US-made cells. Premium.

Plans have been filed with the Development and Planning Commission for a battery energy storage station [BESS] at the North Mole power station that will provide resilience to Gibraltar's electricity supply and reduce ...

Clean energy loan and grant activity from the US Department of Energy (DOE) and its Loan Programs Office (LPO) has soared around the election of Donald Trump, analysis by Energy-Storage.news shows, with officials reportedly keen to get deals over the line before the new administration comes in.

Australia's Queensland government is set for crunch talks with Queensland Hydro to "save" the 2GW/48GWh Borumba pumped hydro energy storage (PHES) project, with its cost having increased to AU\$18 billion (US\$11.5 billion) and been delayed by three years.

This is a significant investment which will provide a greener, more resilient future for Gibraltar. It is important to understand, however, that the new Battery will not be able to ...

Energy-Storage.news will follow up to report the outcome of those meetings in due course. CC Power selected a second 8-hour duration lithium-ion BESS project for a contract in March 2022, a 50MW/400MWh ...

A consortium of development finance institutions led by the Asian Development Bank (ADB) and IPP Gulf Energy have signed a US\$820 million loan agreement for a solar and storage portfolio in Thailand. BYD launches sodium-ion grid-scale BESS product

The company shipped 6.9GWh of battery storage, including its Megapack utility-scale battery energy storage system (BESS) and Powerwall residential units in the quarter. This was about 30% less than the all-time-high 9.4GWh it reported for the second quarter of this year but a 75% increase year-on-year from Q3 2023's 4GWh.

Solarcentury Africa, His Majesty's Government of Gibraltar and the Gibraltar Electricity Authority have entered into a build, own, operate and transfer agreement for a 14 MWh (AC) battery energy storage system to be ...

The EU recently approved EUR1.2 billion for energy storage Poland under the TCTF, as covered by Energy-Storage.news, and in mid-2023 approved amounts under the TCTF in Hungary and Slovenia. Panelists at this year's Energy Storage Summit Central and Eastern Europe (CEE) in September described Hungary's

scheme as one of the most advanced in ...

The 1500GW target is double what BloombergNEF has forecast is scheduled to be online based on current deployment pipelines, as reported by Energy-Storage.news this week. Energy-Storage.news" publisher Solar Media ...

Those goals were set as part of New York State's Climate Leadership and Community Protection Act legislation. As reported by Energy-Storage.news on 22 December, the New York Climate Action Council ...

The LDES council said it also supports this storage goal. For many, energy storage is synonymous with lithium-ion (Li-ion) batteries--which represent the biggest share of new additions today--or pumped hydro--representing most of ...

That is for both the Y-4 auction, for delivery in 2028-2029, and the first Y-1 auction, for delivery in 2025-2026. Some 13 new large-scale projects were selected, including from utility and independent power producer (IPP) Engie and developer-operators Storm and Giga Storage brings the total BESS awarded CRM contracts to-date to 1.1GW, Aurora added.
