

Which UK battery energy storage systems have won government approval?

Three new UK battery energy storage systems (BESS) and a 150 MW capacity solar farm have won government approval. The Scottish government has given Kona Energy the green light for the construction and operation of the Smeaton battery energy storage system (BESS), a 228 MW/456 MWh project near Dalkeith, East Lothian.

How much government funding has been given to energy storage projects?

This was published under the 2022 to 2024 Sunak Conservative government. Over £32 million government funding has been awarded to UK projects developing cutting-edge innovative energy storage technologies that can help increase the resilience of the UK's electricity grid while also maximising value for money.

Will Statera Energy build a battery energy storage system near Chickerell?

Statera Energy has secured planning permission for a 400MW battery energy storage system (BESS) for up to 6 hours duration near Chickerell, Dorset.

What does the Conrad Energy approval mean for the UK?

The approval demonstrates Conrad Energy's commitment to enabling the UK's ambitious net zero plans and reflects their continuing investment in energy storage. Conrad Energy's largest battery storage project to date will use local topography and innovative design to conceal the scheme within the landscape.

Will a 228 MW battery energy storage system help decarbonise the UK?

The UK government's 2030 target for decarbonising the country's electricity grid has been bolstered by development approval for a 228 MW battery energy storage system (BESS) in Scotland and what is claimed to be the largest solar farm project in the UK to date. Photo: Freepik

Is Eku Energy launching a solar project in the UK?

Meanwhile, Eku Energy's 40 MW/40 MWh BESS in Maldon, Essex, has come online. It is the company's first UK project to reach commercial operation. In other news, to the east, Island Green Power's Cottam solar and energy storage project on the Lincolnshire/Nottinghamshire border has been awarded development consent by the UK government.

Conrad Energy, the UK's market leading flexible power company, has recently secured planning consent for a 50MW 2-hour battery energy storage system in North Petherton, Somerset. The approval demonstrates Conrad ...
