The Ennogie solar cell roof consists of 4 primary elements; solar cell roof, microinverters, control unit and battery pack. The Company operates in Denmark and Germany. View full business profile

When the roof's dimensions do not match the size of the solar cell modules exactly, we use a so-called adapter module. It looks similar to the solar cell modules, but it does not produce energy and it can be cut to the exact size at the construction site. The adapter module is also used for skylights and chimneys etc.

Ennogie is the leading supplier of solar roofs in Denmark - and in the Nordics. Since the first Ennogie solar roof was installed in 2016, we have been delivering self-produced, sustainable electricity to many danish and german households, which has granted them not only a lower electricity bill, but has also saved the environment of a substantial amount of CO₂.
