Absorbent Glass Mat (AGM) are like wet cell batteries, but instead of having a free-floating electrolyte, it is bound in a special glass fiber separator. This makes the battery leak-proof, and ensures that, even if the battery case is damaged, no battery acid will escape. AGM batteries are versatile, high performing, and designed for high demands.

Willard Batteries" leisure range is the perfect power solution for all your recreational needs. Designed with the outdoor enthusiast in mind, our leisure batteries are specially crafted to provide reliable and long-lasting power for a wide range of leisure activities.

The equation is: Battery Running Time = (Battery Power Capacity (Wh) / Inverter Power (W)) x Inverter Efficiency %
Battery Running Time = (1200 Wh / 1000 W) x 95%
Battery Running Time = 1.14 Hours or 1 Hour and 8 Minutes
So, a 200Ah 12V lead acid battery with 50% DOD could power a 1kW inverter with 95% efficiency at maximum load for 1 ...

The solar mini-grids provide clean, stable power 24/7. The project was funded by the Eritrean Government with support from the European Union Delegation to the State of Eritrea and the United Nations Development Programme. Solarcentury project manager, Theo Guerre-Canon, commented: "The community are at the heart of this project.
