

What is the EMS service in Estonia?

The EMS service in Estonia is part of AS Eesti Post (Omniva) which is Estonia's designated universal postal service provider, supporting customers, businesses and communities worldwide. AS Eesti Post (Omniva) was founded in 1918 and joined the EMS Cooperative in 2005.

How to track a shipment from Estonia?

To avoid worrying about your shipment from Estonia and knowing where it is at any given moment, you can track a package on the Postal Ninja website with the translation of all tracking statuses. The sender can obtain the tracking number for a Estonia Post shipment by registering it at the post office. You can also register a shipment remotely.

Does Omniva deliver EMS shipments?

As part of the EMS cooperative, Omniva is an official operator for the delivery of EMS shipments. There are two types of general prohibitions and restrictions that are typical of all postal services: weight/measurement and content.

What are the classification criteria for EMS shipments?

Postal shipments are grouped into two categories, and the main classification criterion is weight: small parcels are up to 2 kg; shipments are over 2 kg. Small parcels up to 2 kg may not be traceable, but Omniva always registers EMS shipments and express deliveries and assigns them a tracking number.
