Did Kamala Harris boost a South Korean solar company?

Vice President Kamala Harris boosted a South Korean solar company whose supply chain may rely on Chinese slave labor, a list of federally sanctioned entities shows, with her and President Biden's administration handing out nearly \$2 billion to the firm to set up a plant in Georgia.

Will South Korea's new solar panel factory dampen US efforts?

DALTON, Ga. (AP) -- A South Korean company has begun production at a huge new solar panel factory in Georgia even as industry leaders say surging Asian imports could dampen efforts to make more solar components in the United States.

Where is Hanwha qcells solar?

(AP Photo/Mike Stewart) Articulated robots move inside the Hanwha Qcells Solar plant, Monday, Oct. 16, 2023, in Dalton, Ga. The Korean company is opening what it says is the first solar panel factory to begin production in the U.S. since the passage of President Joe Biden's signature climate legislation.

Could South Korea be the largest solar factory in America?

The South Korean company announced its decision in May 2018 and will begin construction this year. The \$150 million facilities, which is scheduled to be completed in 2019, has an estimated yearly production capacity of more than 1.6 GW. A factory of this size could make it the largest solar manufacturing facility in America.

Should solar panels be reliant on China?

Instead, the decision to reward foreign firms with Chinese sub-suppliers will make solar panel production "always reliant on China," he said, which can undercut US producers with cheap labor. "We should be making more of those solar panels here in the United States of America," the GOP Ohio senator said. REUTERS

A Georgia nonprofit that leases solar panels and battery storage to low-income homeowners has been awarded \$156 million from the federal government to expand the program, the U.S. Environmental Protection Agency (EPA) announced Monday.
