Wind. NRG Systems has been designing and manufacturing wind measurement solutions for over four decades. We pioneered the complete system approach to wind resource assessment and have gone on to apply the concept of turnkey solutions to all stages of the project lifecycle, including power performance testing, wind plant optimization, and monitoring.

Benefits UNRIVALED EASE-OF-USE. Even with significant advancements in capability and flexibility, SymphoniePRO continues and improves on the Symphonie legacy as a data logger that is simple to use--offering everything you need and nothing you don't.

Please contact support@nrgsystems to learn more about the options available for this service. Details; Details. Calibration of sensors both before and after a measurement campaign is a common practice that seeks to minimize measurement uncertainty.

With ever increasing energy costs, supply security and decarbonisation concerns, we firmly believe renewable energy is the solution. That's why Greenland Systems has developed innovative ultra-high heat solar thermal equipment for ...
