

How much does energy cost in Guadeloupe?

Energy Snapshot Guadeloupe This profile provides a snapshot of the energy landscape of Guadeloupe, an overseas region of France located in the eastern Caribbean Sea. Guadeloupe's utility rates are approximately \$0.18 U.S. dollars (USD) per kilowatt-hour (kWh), below the Caribbean regional average of \$0.33 USD/kWh.

Where can I find information about Guadeloupe energy?

Welcome to the website of Guadeloupe Energie! On this website, you'll find information on Guadeloupe's progress on energy transition from energy legislation to industry data, from profiles for renewable energy in Guadeloupe to the latest news and events--all in one place.

How can Guadeloupe achieve energy independence?

"Achieving energy independence in Guadeloupe by shifting from fossil fuels to renewable energy sources is a challenge that we must take up for the benefit of future generations. With clear objectives and applying the means for success, the Multi-Year Energy Program (PPE) exemplifies our political resolve to reach our goals."

Is Guadeloupe a renewable country?

Guadeloupe has a large portfolio of renewable generating capacity, with 112.8 MW installed as of 2013. It also has a diverse portfolio, both in terms of generation types and facility ownership.

Does Guadeloupe rely on imported fuels?

Nevertheless, Guadeloupe's reliance on imported fossil fuels--more than half of the island's electricity is generated from imported petroleum-based fuels--leaves it vulnerable to significant disruptions in shipping or the availability of import facilities.

NPP's Outdoor Integrated Energy Storage System, a cutting-edge solution that seamlessly combines lithium iron phosphate batteries, advanced Battery Management System (BMS), Power Conversion System (PCS), Energy Management System (EMS), HVAC technology, Fire Fighting System (FFS), distribution components, and more, all housed within a robust outdoor energy ...
