Assemblies and Decision-Making. The League's decisions were made through a consensus-based process. The central assembly, called the Hansetag or Tagfahrt, served as the main forum where representatives from member cities discussed trade policies, alliances, and disputes. This assembly began to take shape around 1300 and became more formalized in ...

Since 2020, Hapag-Lloyd Cruises has been using a particularly low-sulphur fuel (marine gas oil 0.1 percent) for its expedition fleet. In addition, other certified fuels are regularly tested, including biofuels (which are obtained from residual and waste materials, for example), which massively reduce CO2 emissions and also contain hardly any sulphur oxides.

Heritage Adventurer is a true pioneering expedition vessel of exceptional pedigree. Often referred to as the "Grande Dame of Expedition Cruising" due to her celebrated history and refined design, she was purpose-built for adventure in 1991 at Finland's Rauma shipyard and specifically designed for Polar exploration.
