

The Bahrain WTC has an intelligent and environmentally responsive design. Enough buffer spaces have been incorporated between the external environment and air-conditioned spaces to reduce solar gain on the building. High-quality solar glasses used with a low-shading coefficient reduce the air temperature of the building.

Solar Energy Company in Bahrain Bahrain boasts some of the greatest quantities of solar radiation in the world, as well as moderate wind speeds. According to the Gulf Research Centre, the kingdom has the capacity ...
