The ability to have HA OS mount network shares is a fantastic new feature of 2023.6. For some of us, it"s been long awaited. So far all we have is the documentation here, and some posts in the release thread. I"m starting this thread as a place to post experiences, good and bad, with this new functionality, as well as any questions left lingering after reading the ...

Intro SD cards, but also SSD"s to a lesser extent, have a finite number of write cycles and will fail at some point. Your mileage will vary based on the quality of storage you"re using, and of course how busy your system is. But one thing can be said and that is that Home Assistant does very little to help and reduce the data being written to disk. In Release 2022.4 some improvements ...
