

Icast energy Aruba

Where does Aruba get its electricity from?

Aruba currently gets 15.4% of its electricity from renewable sources. The island has sufficient renewable energy resource potential, with excellent technical potential for ocean, wind, and solar renewable energy generation.

What is the iCast resource guide?

ICAST has created a Resource Guide meant to help MF owners and managers, policymakers, regulators, utilities, energy efficiency program implementers, and affordable housing stakeholders overcome the barriers to deploying VHE technologies in MF properties.

What is the cost of electricity in Aruba?

The energy landscape of Aruba, an autonomous member of the Kingdom of the Netherlands located off the coast of Venezuela, is outlined in this profile. Aruba's utility rates are approximately \$0.28 per kilowatt-hour (kWh) (below the Caribbean regional average of \$0.33/kWh).

What services does iCast offer?

ICAST offers multiple solar services and programs to suit your needs. One of our goals is to provide solar energy to low-income residents living in multifamily housing, which we do through community and multifamily solar.

How much energy does Aruba consume annually?

Aruba has an annual consumption of 990 gigawatt-hours (GWh). Currently, about 13% of its generation comes from a 30-MW wind project and 0.9% comes from waste-to-energy (WTE) biogas. An additional renewable capacity of 34 MW is planned or in progress. Aruba's installed generation capacity is 230 megawatts (MW) with an average load of 100 MW.

What makes iCast unique?

ICAST is committed to fostering, cultivating and preserving a culture of diversity and inclusion. Our human capital is the most valuable asset we have.

Access cash incentives: ICAST will access utility rebates to reduce the project cost for installing green upgrades such as LED lighting, solar, water heating, HVAC, Energy Star appliances, etc. Turn-key service: ICAST can help you access low-cost financing, manage the contractors doing the green upgrades, provide your staff with training on the ...
