

Is it illegal for tenants to install photovoltaic panels themselves

Can a tenant install a solar panel?

If you're a tenant, you'll need to request permission for the solar panel installation from your landlord and make a convincing case regarding the domestic solar array's environmental, financial and reputational benefits.

Are solar panels legal?

However, it's crucial to understand that while installing solar panels is legal, certain conditions must be met. For most domestic properties, solar panel installations are considered a "permitted development" and do not require planning permission, provided they respect certain size criteria.

Do I need permission to install solar panels?

Nevertheless, if your building is listed or located in a conservation area, you will need to seek specific permissions. It's paramount that any solar panel installation is carried out by the Microgeneration Certification Scheme (MCS).

Can solar panels be installed on a listed home?

To install solar panels on a listed home, you must apply for a Listed Building Consent (LBC) from the LPA. For your LBC application to succeed, you'll generally have to demonstrate several things to your council, including the following: The solar panels won't significantly alter or detract from the property's aesthetic qualities.

Are solar panels legal in the UK?

All electrical work in the UK must comply with the national standard, BS 7671. Therefore, it's not just about the legality but also the safety and reliability of your solar panel system. While the Feed-in Tariff (FIT) scheme has concluded for new applicants, those already part of it continue to benefit from the incentive.

Do you need planning permission for solar panels on flats & apartments?

Gaining planning permission for solar panels on flats and apartments is possible, and whether you'll require permission is based on the same factors as for houses. However, planning permission for flats and apartments comes with a bit more administrative red tape.
