

Jasco solar Fiji

Where is solar Fiji located?

Lot 41-42 Pilling Road, Nasinu, Suva. Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, Canadian Solar, Narada Batteries and QCells.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

Why should you choose solar Fiji?

As an official partner of Victron Energy, our quality solar products and services are designed to maximize the longevity of your system, providing energy efficiency and cost savings for the long term. If you're looking for a reliable and experienced renewable energy service provider in the South Pacific, look no further than Solar Fiji.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, Sungrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.

The Jasco Solar Panel 550 Watts represents the pinnacle of solar energy technology, offering unmatched efficiency and power generation capabilities. Engineered with cutting-edge photovoltaic cells and advanced materials, this high-performance panel delivers exceptional output, making it ideal for demanding residential, commercial, and ...

Solar Fiji supplied and installed an 880W Trina solar panel system in two homes in Moala, Lau Island, Fiji. The solar system will generate an average of 0.88kWp, and the inverter is capable of powering items such as LED lights, TV/DVD/Radio, small fridge or small deep freezer, computer, mobile phones, fans and other small electrical items. ...

Measure the spectral transmittance and reflectance of a sample and calculates the solar reflectance, transmittance, and absorptance, as well as the light transmittance, reflectance etc. *V-770 only VWSP-966 | SPF/PA Calculation
