What is optergy BMS?

Accessible securely via any network-connected device, our system ensures you're always in control, wherever you are. Optergy's BMS solution provides a suite of advanced tools to streamline information access: Create bespoke user profiles with varying levels of access--from full system control to view-only modes.

Why should you choose optergy BMS through leading edge automation?

Tailor experiences for different team members or restrict access to energy management only, focusing on individual energy consumption metrics. By adopting the Optergy BMS through Leading Edge Automation, you're choosing a smart, secure, and efficient way to manage your building's ecosystem. Keep up to date with the latest automation news.

Does optergy integrate with BACnet & Modbus protocols?

Optergy's software integrates with BACnet and Modbus protocols, the industry's standard for HVAC equipment. Users can stay connected and have full control over the building assets. Optergy's built-in tools and applications enable the following smart solutions: With effective monitoring also comes efficient controls.

Why should you choose optergy?

Optergy's built-in tools and applications enable the following smart solutions: With effective monitoring also comes efficient controls. With built-in smart building alarming, the system can send out contextual alerts as problems occur. This will inform the right people and allow them to know what to respond to as well as where to respond.

How many employees does optergy have?

Optergy has 5 employees across 2 locations. See insights on Optergy including office locations, competitors, revenue, financials, executives, subsidiaries and more at Craft.

Optergy | 1,976 followers on LinkedIn. Take complete control of your building. | Optergy is a technology company dedicated to the business of managing buildings, facilities and enterprises with tools to improve efficiency, performance and processes, whilst providing key stakeholders with the information and reporting to make strategic decisions. Optergy Enterprise is software ...

The Optergy metering system allows all utilities to be reported in a common format which can further be automated to provide regular reports for individual meters (tenant) or groups of meters (building). The automatic meter reporting can be output in CSV, PDF or emailed.

This insightful article demystifies the often misunderstood world of Building Management Systems (BMS), shedding light on the evolution and modern capabilities of open systems. It traces the journey from
