

Jersey solar energi

Why is solar important in Jersey?

Solar is a vital component of modern homes in Jersey, contributing to the state's renewable energy and energy management. For those focused on the bottom line, solar serves as a safeguard against rising grid electricity costs.

What happened to solar in Jersey (at SunWorks)?

Despite the global Pandemic, solar continued to grow at SunWorks in Jersey. In 2021, the company moved its headquarters to St Helier Business Park and was able to install solar panels there.

Who installed the largest commercial solar installation in Jersey?

SunWorks was contracted by Jersey Electricity to install the Channel Islands' largest solar installation at Jersey Dairy, a total of 1,516 Solar panels. This saw the start of JE's lease scheme for commercial building owners and enabled SunWorks to deliver a world-class commercial solar installation in Jersey.

Can older solar projects be registered in New Jersey?

Older projects may be registered in one of New Jersey's former solar programs, the SREC Registration Program (SRP) or the Transition Incentive (TI) Program, through which they continue to receive SRECs or TRECs. SRECs, TRECs, and SREC-IIs represent the clean energy attributes of electricity generated from a solar energy project.

Why should you invest in solar energy in New Jersey?

The growth of solar energy in New Jersey has created thousands of jobs in sales, installation, manufacturing, and financing. By investing in solar, you're also investing in a new job market, supporting your local economy.

How can Sunworks make a more diverse energy future for Jersey?

Sunworks is striving to make a more diverse energy future for Jersey by providing the best advice, service, and solar technology. We look forward to a time when Jersey can say it makes the best use of its resources and is an example to other offshore jurisdictions. Sunworks' efforts towards this goal are integral to modern homes being connected and integrated.

On December 7, 2022, the New Jersey Board of Public Utilities (Board) approved a notice of proposal to amend its existing solar energy rules to include the Competitive Solar Incentive (CSI) Program, to be codified at N.J.A.C. 14:8-11.10 as part of the larger Successor Solar Incentive (SuSI) Program, set forth at N.J.A.C. 14:8-11. The SuSI Program serves as the permanent ...
