

Is Kyrgyzstan reviving Naryn River Project?

Toktosun Shambetov is a correspondent for RFE/RL's Kyrgyz Service. Amid power shortages in the country, Kyrgyzstan is looking to revive a long-troubled venture along the Naryn River, but questions remain over the viability of the plan and the Chinese companies chosen for the project.

Will Kyrgyzstan build a hydropower plant along the Naryn River?

Kyrgyzstan already has some HPPs along the Naryn River and some plans to build others are decades old. Those plans have new momentum as policymakers are increasingly looking to harness the hydropower potential of the river, which flows westward and eventually joins with the Syr Darya, one of Central Asia's two main water arteries.

Will Kyrgyz build a new hydropower plant?

In seeking to build its power-generating capacity, Kyrgyz authorities also want to push forward with long-held plans for a series of new hydropower plants (HPP) along the Naryn River, with Bishkek signing a memorandum of understanding and an investment agreement with a consortium of Chinese companies on July 27.

Could Kyrgyzstan be a major source of export revenue?

Studies over the years by entities like the United Nations, World Bank, International Monetary Fund, and Asian Development Bank have projected that proper development of the area could provide a major source of export revenue for Kyrgyzstan, which could then sell extra electricity to its neighbors in Central and South Asia as well as China.

What is Kyrgyzstan's long-term strategy?

As former Energy Minister Doskul Bekmurzaev -- who was removed from office after an abuse-of-power scandal last year -- told Interfax in an August 2022 interview, Kyrgyzstan's long-term strategy is to increase its power-generation abilities in order to gain a surplus that can be sold next-door in the Chinese market.

Why is Kyrgyzstan preparing for a three-year energy emergency?

BISHKEK -- Long-reliant on hydropower to keep its power grid up and running, Kyrgyzstan is grappling with nationwide electricity shortages so severe that the government declared a three-year energy emergency that took effect on August 1.

This past week, Kyrgyz MPs vigorously debated the Government's resolution to transfer stakes in nine energy companies in Kyrgyzstan to the charter capital of the National Energy Holding. Finally, 76 deputies supported the document and 27 voted against it. Kyrgyzstan is now using only one tenth of its energy potential. However, the electricity consumption is ...

This is a list of rivers that are at least partially in Kyrgyzstan. [1] The rivers are grouped by drainage basin. Rivers flowing into other rivers are listed by the rivers they flow into. Some rivers (e.g. Syr Darya) do not flow through Kyrgyzstan themselves, but they are mentioned for having Kyrgyz tributaries.

Kyrgyzstan is facing a growing energy crisis despite a higher water level at its main reservoir, Toktogul, and massive investment into new hydropower stations (HPPs). The mountainous country is almost entirely dependent on hydropower. While the current water level of 13bn cubic metres at Toktogul is above last year's level of 11.8bn cubic metres, Energy Minister ...
