

# Legal photovoltaic panel consultation

Do you need planning permission to install solar panels on your roof?

An increasing number of people are investing in solar energy. More and more homes are having solar panels, or solar tiles, installed on their roofs. Of course, with such installations, the topic of planning permission and building regulations often comes to the surface.

Can I install solar panels if I don't meet building regulations?

Your local authority can also apply for a Confiscation Order to take away any money you've earned with your system - so there's absolutely no benefit to installing solar panels that don't meet building regulations. It's crucial that your solar installation follows all building regulations.

Are solar panels compulsory in the UK?

Following a consultation by the UK Government, Solar Energy UK predicts that compulsory solar panels will be included in the upcoming Future Homes Standard and Future Buildings Standard (due for publication in late 2024). Are solar panels on new builds mandatory in Europe?

Do solar panels need planning permission?

It is true that the majority of solar PV installations will be classed as a PD. However, there are instances where you will need to seek planning permission from your local authority. This is the case if your solar panels: If you live in Scotland, there are a few additional rules that require planning permission.

When will solar panels be mandatory?

In March 2024, the European Parliament approved a law requiring solar panels on all new residential buildings by 2030. The EU Solar Standard makes it mandatory for member states to gradually include solar installations in new public, commercial, and residential buildings.

Are solar panels a legal requirement for new homes?

Even though installing solar panels on new builds is a great way to set new homes up with renewable energy from day one, it's not yet a legal requirement. One common problem is that developers don't use all the available roof space, resulting in a less effective solar panel system.

The government's latest amendments to permitted development rights in England will see more scope for solar panel installations on buildings (or in the curtilage of a building) without needing full or householder ...
