

Light curtain power generation solar energy scam

Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more.

What are energy scams?

Energy scams involve people pretending to be energy companies or regulators to get your money or personal information. These scammers may pretend to be your energy company, say they're from Ofgem or even from Energy Saving Trust to try and gain your trust.

How do you know if a solar company is a scam?

Ask for ID. Many scammers wear uniforms that resemble those of the energy or solar company they claim to represent. However, just because they look the part doesn't mean they're the real deal. You have the right to check their ID and call their supposed employer to determine if they're legit. Be detail-oriented.

Are solar business leads a scam?

At best, this is someone generating leads to sell, not actual solar businesses. At worst, they're scammer trying to steal your identity. If you spot a scam, tell the Federal Trade Commission at [ReportFraud.ftc.gov](https://www.ftc.gov/ReportFraud).

What is a door-to-door Energy scam?

Door-to-door energy scams are a growing issue in Texas and other deregulated electricity markets. Criminals pose as electricity providers or utility company representatives to gain your trust and steal your money or identity. Scammers are also targeting residents interested in solar panels.

How do I protect against energy and solar scammers?

If that happens, you should call your provider (there should be a phone number on your bill), get in touch with the local police, and file a complaint with the Federal Trade Commission. With these tips in mind, you can safely protect against energy and solar scammers in your area.
