

Litton systems inc Bermuda

Is Litton going to be restructured?

There are plans for more restructuring at Litton in the future. New CEO Orion Hoch, who took over in late 1986, aims to reduce the company's reliance on defense contracts and enhance oil services and industrial automation services.

How did Litton contribute to high technology?

Litton's most significant contribution to the high technology field was its inertial guidance system, which helped keep planes on their flight routes. As a direct result of the effectiveness of this system, Litton procured a \$1.6 billion contract from the Saudi Arabian Air Force. Problems at Ingalls Shipbuilding were eventually corrected.

When did Litton become a high technology company?

During the 1980s, Litton finally became the high technology company it had always regarded itself. Orion Hoch, who took over as chief executive officer in late 1986, oversaw the divestment of 14 major unprofitable and non-related businesses representing over \$1 billion in sales.

Did Litton Industries buy TASC?

In 1998, Litton Industries bought TASC, Inc. In 2000, TASC sold three stand-alone commercial operations: Adesso Software, WSI (Weather Services International) Corporation and Emerge. The company reported sales of \$5.6 billion and a net income of \$218 million for the 2000 fiscal year.

Why did Litton buy core laboratories?

During the 1980s, Litton dropped its businesses in publishing, medical products, office furniture, and microwaves and shifted the production to sophisticated technology. As a result of that, the company bought the electronic firms Itek Corp. and Core Laboratories.

Which were Litton's most important acquisitions?

One of Litton's most important acquisitions was Ingalls Shipbuilding Corporation, the country's third largest private shipbuilder, purchased for \$8 million in cash and the assumption of \$9 million in debt.
