

Does Luxembourg have a photovoltaic system?

Photovoltaic installations in Luxembourg are diverse and include rooftop solar, ground-mounted solar plants, floating installations and solar carports. From January 1, 2023, the government reduced the value added tax (VAT) on new photovoltaic installations to 3% and increased subsidies for photovoltaic installations for own needs to 62.5%.

What is agrivoltaics in Luxembourg?

Agrivoltaics is one of the major areas of focus under the plan to promote agricultural production along with solar PV. Photovoltaic installations in Luxembourg are diverse and include rooftop solar, ground-mounted solar plants, floating installations and solar carports.

Is Luxembourg a good place to invest in solar energy?

Overall, Luxembourg actively promotes photovoltaic installations and has seen significant growth in the sector in recent years. Government support and various incentives are expected to continue to fuel the development of solar energy in the country.

How many solar modules are there in Luxembourg?

The European joint venture will open a PV module factory in Hollerich, Luxembourg, at the end of this year. In the first phase, the facility will have 50 MW of capacity, producing nearly 100,000 solar modules per year, according to a statement from the government of Luxembourg. Solarcells plans to double the factory's capacity to 100 MW by 2026.

Why is solar energy booming in Luxembourg?

"Solar energy is booming in Luxembourg ... this energy source is not only clean and helps the Grand Duchy to achieve its renewable energy development objectives, but it is also produced locally and is part of the solutions to break out of dependence on Russian fossil fuels," said Luxembourg Energy Minister Claude Turmes.

How much does a C&I solar project cost in Luxembourg?

Luxembourg has kicked off its second tender for C&I solar projects ranging in size from 30 kW to 5 MW. It is offering rebates of up to EUR745 (\$835) per kilowatt installed and up to 55% of the total cost of buying and installing systems. Luxembourg has selected 75 solar projects in the nation's first procurement exercise for self-consumption.
