Where is Peregrine Energy based?

Peregrine Energy's two assets, Best Southwest BESS in Dallas County and Mallard BESS in Collin County, are strategically sited in Texas and total 490MW of renewable energy capacity. They are near the Dallas-Fort Worth energy load pocket and within developing congestion pockets. Peregrine is targeting an early 2025 commercial operation date for both assets.

Who are peregrine energy solutions & Black Mountain Energy Storage?

Peregrine Energy Solutions is a limited liability company formed in Delaware and headquartered in Boulder, Colorado*. Black Mountain Energy Storage is a team of energy experts who develop and operate battery energy storage facilities. Peregrine Energy Solutions is the company, while Black Mountain Energy Storage is the team.

Is Peregrine solar powered?

Peregrine is solar-powered, but requires fuel to keep the spacecraft in a stable direction pointing toward the sun. "At this time, the goal is to get Peregrine as close to lunar distance as we can before it loses the ability to maintain its sun-pointing position and subsequently loses power," the company said in an update.

How much did the 'Peregrine I' spacecraft cost?

The 'Peregrine I' spacecraft takes off from Cape Canaveral (Florida). CHANDAN KHANNA (AFP) The budget for the Mexican project was 13 million pesos (about \$770,000), which came equally from the Mexican Space Agency and the National Council of Science and Technology.
