Energy's Digital Future is a wake-up call and an urgent warning not only to the U.S. government but also to investors worldwide. Jaffe, whom I have often turned to for advice on energy investing, presents a well-balanced, research-backed analysis that points to the need to embrace the digital revolution in energy technologies.

Overview of Bouvet Island. Bouvet Island is a remote and almost inaccessible island south-southwest of Cape Town. This volcanic island covers an area of approximately 19 square miles of which 93% is covered by a glacier. It was discovered in 1739 by Jean-Baptiste Charles Bouvet de Lozier (a French Naval officer on an exploration mission), after ...

The Integrity Council for the Voluntary Carbon Market (ICVCM) is on a mission to change this. They were established in response to recommendations from the Taskforce on Scaling the Voluntary Carbon Markets, which is an initiative backed by UN climate envoy Mark Carney and more than 250 institutions in the voluntary offset sector.

Bouvet Island's story begins in 1739, discovered by the French naval officer Jean-Baptiste Charles Bouvet de Lozier. However, due to inaccuracies in charting its coordinates, the island would become a phantom, missing from maps until it was rediscovered in 1808 by the British sailor James Lindsay. This small, uninhabited volcanic island ...

Bouvet Island is a great place to observe penguins and fur seals, particularly chinstrap penguins and macaroni penguins. The macaroni penguin is one of the most common penguin species globally, easily identifiable by its distinctive orange plumes. These migratory penguins primarily feed on crustaceans and prefer breeding in rocky slope areas.

Bouvet Island - Wikipedia. Excluding a small rocky outcrop near the coast, Lars Island, the nearest land to Bouvet Island is Queen Maud Land in Antarctica, 1,700 km to the south. To the north, the British territory of Gough Island is 1,600 km away.

Bouvet Island (Norwegian: Bouvetøya, also historically known as Liverpool Island or Lindsay Island) is an island in the southern part of the Atlantic Ocean is in the sub-antarctic areas, 2500 km (1500 miles) south-southwest of the Cape of Good Hope (South Africa).. It belongs to Norway and is not subject to the Antarctic Treaty (which says that land south of ...
