

Does Moldova use natural gas?

3 Natural gas is used at MGRES power plant, which is situated in Transnistria. The Moldovan government procures electricity directly from the plant. Renewables represent 20% of Moldova's energy mix, consisting almost fully of solid biofuels (19% in 2018). 6% of electricity generation comes from renewable sources (hydro, wind, solar PV).

How much energy does Moldova use?

Moldova imports 100% of its gas and coal consumption, nearly all of its oil consumption and around 80% of its electricity (including electricity procured from the Moldavskaya GRES [power station] situated in Transnistria). 1 Second, Moldova has obligations stemming from its aspirations for European integration.

Where does Moldova get its electricity from?

Moldavskaya GRES (MGRES) in the separatist region of Transnistria supplies the vast majority of the remaining 80 percent of electricity. Moldova also imports electricity from Ukraine and Romania. For years Moldova's natural gas consumption almost exclusively relied on Russian gas imports.

What are the sources of electricity and gas imports in Moldova?

The sources of electricity and gas imports are not diversified and crucially depend on gas supply from Russia and electricity supply from the Moldavskaya GRES power station, which operates beyond the control of the Moldovan government.

Does Moldova have a new energy policy?

Moldova has committed to implement reforms embedded within the European Union's Third Energy Package, a suite of legislation adopted in 2009 aimed at creating integrated and competitive energy markets for natural gas and electricity.

Is Moldova a member of the Energy Community?

Moldova has been a member of the Energy Community since 2010 and signed an Association Agreement with the European Union on 27 June 2014. It therefore had until December 2017 to make its legislation conform to the EU *acquis communautaire*, which

2 ???&#0183; Moldova, Romania's small eastern neighbor, is set to declare a state of emergency in the energy sector for 60 days, starting December 16, 2024. The announcement was made by ...

Because Moldova lacks energy resources, it is almost fully dependent on imports of fossil fuels and electricity. Since October 2021, gas prices have increased significantly in Moldova due to both the latest developments on the regional energy markets caused by the post-pandemic economy recovery and the war in Ukraine (the purchasing gas price increased from 265 ...
