

What is Morocco's energy strategy?

When Morocco introduced its national energy strategy in 2009, it initiated an energy transition which aims to ensure that about half of installed electricity generating capacity will come from renewable energy sources by 2030.

What are Morocco's energy policy initiatives?

Beyond the advancement of renewable energy, Morocco's policy initiatives encompass energy efficiency measures in challenging-to-abate sectors, such as building insulation and the adoption of energy-saving light bulbs. The overarching objective is to achieve a 20% reduction in overall energy consumption by 2030.

How can Morocco improve its energy security?

As a net energy importer seeking to improve its energy security, Morocco has stepped up initiatives to achieve a level of domestic energy sovereignty. This includes following guidelines for transitioning to cleaner energy sources, with an emphasis on diversification.

What is the Moroccan energy sector doing about variable renewables?

The national electricity supplier and grid operator, as well as other actors in the Moroccan energy sector, are developing solutions and improving skills to enable the electricity system to account for a larger share of variable renewables. The project operates in the following areas of action:

How is Morocco pursuing a resilient energy future?

Morocco is pursuing a resilient energy future through a multifaceted approach. This includes a strategic focus on renewable energy sources to accompany its energy transition, and the diversification of its energy mix to ensure a sustainable energy transition without compromising energy security.

How can Morocco transform its energy sector?

Morocco has embarked on an ambitious journey to transform its energy sector. This ambition is driven by the High Royal Orientations and has three key pillars: increasing renewable energy capacity, promoting energy efficiency, and fostering regional integration.

Check TRI ENERGY GLOBAL PTE. LTD. TRI ENERGY GLOBAL PTE. LTD. is a company registered in Singapore.
