

Solar renewable energy is widely recognized for its environmentally friendly nature, sustainability, and positive environmental impact. The solar industry in Myanmar has experienced a significant expansion of ten times its previous size within the last year.

These efforts have been applied carefully to the various renewable energy projects undertaken by Gold Energy Company. Gold Energy carried out a detailed Environment Impact and Social Impact Assessment (EIA & SIA) for the Taungdaw Gwin 20MW Solar project well before construction commenced in 2021.

With Myanmar media reporting that the country produces between 2.9 gigawatts (GW) and 3.1 GW of electricity - which is just enough for 44 percent of the country's population of 55 million people - the 170 MW that the Minbu Solar Power Plant will be capable of generating can only contribute to less than 0.5 percent of the nation's current power demand.

When bids were opened in Myanmar's 1.06 gigawatt solar power tender on 9 September, a few names were repeated over and over: Sungrow Power Supply Co Ltd and China Mechanical Engineering Corporation, State Power Investment Corporation, China Gezhouba Group and Xian Longi Clean Energy Co Ltd.

SolaRiseSys Company Limited (SRS) is an ISO9001:2015 certified, a pioneer local Renewable Energy Service Company in Myanmar since our establishment from 2010, we have gradually become one of the leading solar companies in ...

On 24 May 2021, the Electric Power Generation Enterprise ("EPGE") under the Ministry of Electricity and Energy of Myanmar ("MOEE") launched its second solar tender (Tender No. EPGE PV 02/ 2021-2022) in the same fashion as it did its first ever solar tender (Tender No. EPGE PV 01/ 2019-2020) in last year. The new tender invites interested developers to submit bids for the ...
