

How can Nauru reduce its reliance on fossil fuels?

In order to achieve Nauru's ambitious goal of reducing the country's high reliance on imported fossil fuel by meeting 50% of its energy needs from renewable energy sourcesby 2015,1 the Nauru Government requested technical support from GIZ,SPC and IRENA in the development of a Nauru Energy Road Map in early 2012.

What type of energy is used in Nauru?

Renewable energyhere is the sum of hydropower,wind,solar,geothermal,modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal,crop waste,and other organic matter - is not included. This can be an important energy source in lower-income settings. Nauru: How much of the country's energy comes from nuclear power?

Does Nauru have an energy road map?

Currently Nauru is working on an Energy Road Map,including action plans for the development of renewable energy and energy efficiency sufficient to significantly lower imports of diesel fuel for electricity generation.

What is Nauru energy policy framework (Nepf)?

The Nauru Energy Policy Framework (NEPF) was endorsed in 2009 and layout broad aims and strategies for the energy sector, including power, renewable and energy efficiency. The NUC currently provides all electricity services to Nauru except for RPC and the main processing plant of RONPHOS.

How can we monitor progress towards Nauru's energy sector goals?

In order to monitor progress toward Nauru's energy sector goals and to plan for future energy projects, it is essential that accurate, timely, (reasonably) complete, consistent, up-to-date and accessible databe collected, stored and maintained regarding renewable energy resources, energy imports and energy use in Nauru.

Does the NUC provide electricity to Nauru?

The NUC currently provides all electricity services Nauru except for the RPC and the main processing plant of RONPHOS which both generate their own power. Diesel, petrol and jet fuel are purchased by the government for all customers except RONPHOS who do their own purchasing.

Because of this founding principle, Optiv Energy is committed to sharing 1/3 of profits equally amongst every member of the team. 1/3 will be reinvested into the business for R& D, growth, and ...
