

We help clients navigate the global energy transition; plan and implement solar, wind, storage, biomass, geothermal, waste-to-energy, and hydropower systems; and optimize operations across the value chain.

It will conduct in-depth research on the upstream core equipment supply, midstream energy storage system integration, and downstream energy storage system applications in the new ...

The fast emerging energy storage market is the best example of such opportunities. As Net Zero commitments start gaining greater momentum, battery storage demand will surge to new heights in the coming decade. In ...

Since the stock index returns of new energy contain volatility information in different periods, the intensity of risk spillovers within the industry chain varies across different ...

Downstream is New Zealand's leading event for the energy industry. Bringing together international influencers and local leaders, Downstream shares strategic insights into our ...

Changing energy trade flows: In 2021, Russia accounted for 27% of the EU's oil imports and 45% of its natural gas imports, primarily through cost-effective pipelines. 28 But the EU's sanctions ...

3 ???&#0183; At the same time, 90% of all new energy storage deployments took place in the form of batteries between 2015 to 2024. This is what drives the growth. According to Bloomberg New Energy Finance, the global energy ...

The Special issue "New Energy Downstream. Emerging business models and innovative best practices: an economic, institutional and behavioural focus," explores the origin, cause, and consequences that the low carbon ...

A new era for energy infrastructure in Ghana. ... Ben Asante, CEO of Ghana Gas, told The Energy Year. Ghana's petroleum downstream sector has grown continuously to match the country's growing consumption of ...

Energy transition is the most crucial vehicle for GHG emission reduction, and battery energy storage systems will play a vital role in enabling the next phase of global energy transitions across the board - from utility-scale ...

RIL's aim is to build one of the world's leading New Energy and New Materials businesses that can bridge the green energy divide in India and globally. It will help achieve our commitment of ...

This special issue has extensively explored these emerging trends in the new energy paradigm from a multidisciplinary point of view to provide a better understanding of their main economic, ...

Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel Murtagh. News ...
