

New Zealand greenway power limited

Is green way a good company?

"Green Way undertook a difficult job with professionalism and minimal supervision. The job was finished to schedule, despite the justified variation to the project which included additional asbestos handling and underground AC pipe removal. I would highly recommend Green Way for any future projects.

Does Green Way offer civil construction services?

Green Way also offers civil construction services. We also engage in civil construction projects, including infrastructure development and drainage solutions. Get in touch with one of our team for a quick and easy consultation. We are here to help you.

Is green way a good contractor?

"Green Way is one of the best contractors to work with. Green Way is willing to accept additional work on ad-hoc basis and their response to emergency situation exceeds expectation" Senior Project Manager "I was the Project Manager representing Auckland council on the Liston Park, deconstruction job.

How many pylons are there in New Zealand?

The grid is made up of over 11,000 kilometres of high-voltage transmission lines, 25,000 pylons that hold them, and 170 substations. Electricity is transported at high voltage (up to 220,000 volts) through a high-voltage alternating current system around New Zealand.

Buildings and construction make up a fifth of New Zealand's carbon footprint. This means that without significantly reducing the industry's carbon pollution, the country's international obligations on climate change won't be met. But things aren't all doom and gloom with many in the Kiwi construction industry leading the way to ensure a greener future for...
