SmartBuild modular buildings are built in an offsite construction process. Offsite construction refers to the completion of elements of a construction project at a different location from where it will be installed. As a result, the planning, design and build of the project is conducted under controlled conditions. The project is then transported to site before installation.

New Zealand plans to invest \$20.5 million into a new, large-scale, renewable energy project in Niue, reducing the island nation's reliance on diesel. The project will bring Niue's renewable generation to 80 percent. New Zealand will also commit \$2 million to the Niue Ocean Wide Trust, which aims to develop a blue economy and ensure long-term ...
