

Who are OEG offshore & OEG renewables?

Delivering specialised offshore solutions for the energy transition through our leading companies: OEG Offshore and OEG Renewables.

Who is OEG offshore?

OEG Offshore is the leading global owner and lessor of reusable offshore DNV certified containers. OEG Renewables is a frontrunner worldwide supplier offering customised services for offshore wind farms. A transformative year defined by continued strategic growth and diversification.

Is OEG energy a 'transformational year'?

offshore services provider OEG Energy Group has hailed a "transformational year" during which its fledgling renewables business generated half of group revenues just three years after being set up.

How can OEG offshore reduce the environmental impact of offshore energy operations?

Our containers play a key role in reducing the environmental impact of offshore energy operations by transporting waste materials back on land for reprocessing. OEG Offshore is also building a fleet of intermodal cryogenic tanks for the growing transport needs of hydrogen production and captured carbon dioxide.

Is OEG positioned for growth?

Heiton said: "As the offshore energy industry continues its structural transition, OEG is firmly positioned for growth, leveraging our core capabilities in supporting offshore energy projects honed over our 50-year history.

What did OEG energy achieve in 2023?

2023 was a year of strong financial performance and acquisitive growth for the OEG Energy Group, achieving the key milestone of 50% of Group revenues derived from the Renewables division, while continuing to pursue an ambitious growth strategy underpinned by an expanded service offering, robust market drivers and a commitment to innovation.
