

Oman business plan for solar energy company

Petroleum Development Oman (PDO) and its parent holding company Energy Development Oman (EDO) are moving ahead with plans for the implementation of a new renewables-based Independent Power Project (IPP) in the northern part of its sprawling Block 6 concession in the Sultanate.

This implies that Oman has focused mainly on solar energy sources as its only source of renewable energy. As clearly indicated in Table 3, the total reported solar energy consumptions in Oman as in 2017 is estimated to be at a maximum of 12 and 220 TJ, mostly from photovoltaic and heat sources, respectively [19]. Other potential renewable ...

Ko, Youn Ho, Managing Director Overseas Business of KOWEPO in the Middle East, said: "We will do our best to work alongside our partner to ensure the smooth implementation of the Manah 1 project to satisfy with the energy transition plan in Oman." The plant will span over approximately 7.8 square kilometres in the Al Dakhiliyah Governorate.

The Ibri II Solar Power Project is part of Oman's strategy to diversify its energy mix and reduce its dependence on fossil fuels. The project is expected to contribute significantly to Oman's renewable energy target of generating 10% of its electricity from renewable sources by 2025. References: Oman Power and Water Procurement Company (OPWP)
