

What are the energy-intensive industries in Panama?

Energy-intensive industries in Panama include food, tobacco, cement and paper production. Based on SNE (2015), Plan Energético Nacional (2015-2050). 4. COMMERCIAL AND PUBLIC SECTOR: The commercial and public sector is the largest consumer of electricity among the four sectors. Consumption reached 2 816 kboe in 2014 (Figure 5).

Where can I study energy and Environmental Engineering in Panama?

These include the energy and environmental engineering course offered by the Technological University of Panama (UTP) at the undergraduate, master's and doctoral levels, and upcoming degrees at the University of Panama (UP) in electricity and renewable energy engineering.

Does Panama offer tax incentives for wind & solar energy?

More recently, Panama established tax incentives for wind and solar energy. Law 44 of 2011 created wind-specific auctions, as well as accelerated depreciation on wind equipment and tax exemption for up to 15 years for wind equipment producers based in Panama.

What are the challenges facing Panama's energy sector?

Challenge: Planning will remain an important cross-cutting area for Panama's energy sector, as planners must cope with rising variability and uncertainty from the envisaged high penetration of solar and wind generation through to 2050.

How can Panama adapt its energy system?

To adapt Panama's energy system to this evolving paradigm, a comprehensive plan is needed that considers a rapid growth in demand from the electrification of transport, including from the introduction of expanded metro lines, electric passenger vehicles and electric buses.

Which sector consumes the most energy in Panama?

The transport sector includes both cargo and passenger transport, and is the largest consumer in Panama's total final energy consumption, at around 45% (Figure 3). The number of vehicles on the road in Panama has accelerated in recent years, from 564 155 in 2012 to 718 518 in 2015 (Figure 7).
