

Can a paternoster be used with open-fronted storage containers?

The paternoster can be used with open-fronted storage containers to efficiently handle small parts via small parts containers, for example. They can be stored loose and without packaging. Important: A paternoster storage system as a circulating storage system cannot be extended at will. This is due to the rigid outer shell.

What is a paternoster storage system?

A paternoster storage system is a computer-controlled storage and transfer system that can significantly improve the efficiency of product storage and picking. These systems, which can be vertical or horizontal, are easy to integrate with a Company's existing Warehouse Management System (WMS). They can also be used as a standalone system.

What is a paternoster warehouse?

Note: A paternoster warehouse is based on the goods-to-man principle and facilitates the picking of small parts, which are made accessible quickly and compactly via so-called removal openings. It enables efficient, directly controllable storage, guarantees a high circulation speed and increases the storage area even where space is limited.

What services do you offer in a paternoster shelf?

Long goods, plates, profiles, stacking boxes, parts, devices, pipes, shafts, pulleys, rollers, cable drums, tools, etc. We offer the right carrier set in the paternoster shelf for any storage product. Planning, production, and installation of carousel shelf systems. Other services include maintenance, repair, and conversion work.

What is a paternoster shelf?

The paternoster shelf (carousel shelf), with its specially adapted carrier sets and receiving spaces, permits addition and removal of any material in a comfortable, and most importantly safe, manner. A specially developed modular system allows for cost-effective solutions despite custom adjustments to each application.

What is a paternoster rack system?

A distinctive feature is the suspension distance between the supporting elements, enabling access to the stored material from atop. The paternoster rack system enables the utilisation of unused and unprofitable space.

Industry. The EK 7002 - Paternoster Industry is a modern storage system for well-arranged and efficient storage of various assembly parts, components and work tools. This device represents an optimal solution of a problems associated ...

Soon: New paternoster storage system by Kardex The installation of the new paternoster storage system by Kardex will be expected in September 2019. We create more storage capacity, improve our logistics and

decrease dust susceptibility. Moreover, the storage system will be connected to the ERP-System AP+, to facilitate the workflow.
