

# Photovoltaic solar panels only charge rent

Can you still get solar panels if you rent a roof?

All rent-a-roof schemes which offered free panels in return for Feed-in Tariff payments are shut to new customers, but there are still solar leases that homeowners can access. Solar subscriptions also provide an alternative way for homeowners to get rooftop panels without paying an upfront cost.

What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

How many homes have a rent-a-roof solar panel scheme?

While the Feed-in Tariff was in effect, more than 900,000 homes in the UK had solar panels installed - so we can estimate that around 27,000 households signed up for a rent-a-roof scheme. What were the problems with rent-a-roof solar panel schemes?

How do I rent solar panels?

You RENT the solar panels for a fixed period by signing a roof lease agreement. If you rent or lease solar panels from a third party, you'll be required to sign a roof lease so that ownership of the solar panels doesn't pass to you once they're installed.

Can you buy a house with rent-a-roof solar panels?

Buying a house with Rent-a-Roof solar panels could lead to mortgage complications. For example, if the lease includes maintenance cost obligations, or if there are certain access rights granted to the installer, a mortgage provider could be unwilling to lend.

How much does it cost to install solar panels on a roof?

1. A range of companies (HomeSun, A Shade Greener) will install free solar panels onto your roof at no cost to yourself. Typically an installation can cost something in the region of £15,000. 2. The panels, installation, maintenance and insurance all come free as part of the package. You don't have to pay for a thing. 3.
