

# Portugal vflowtech pte ltd

Who is vflowtech?

VFlowTech is a Singapore-based long duration energy storage solutions provider manufacturing low-cost and efficient modular vanadium redox flow batteries. VFlowTech's long-term vision is to drive the world towards energy equity where everyone can access clean energy at affordable pricing.

What are the alternatives to vflow Tech?

Alternatives and possible competitors to VFlow Tech may include Natron Energy, Solar MD, and Rhombus Energy Solutions. VFlow uses its unique IP to build safe, long-lasting, high performing low-cost flow batteries for large scale energy storage application.

When did vflow Tech close?

VFlow Tech closed its last funding round on May 7, 2024 from a Series A round. Who are VFlow Tech's competitors? Alternatives and possible competitors to VFlow Tech may include Natron Energy, Solar MD, and Rhombus Energy Solutions.

What makes vflowtech unique?

VFlowTech's unique IP and innovative approach emphasizes eco-friendly and cost-effective battery technology with long operational lifespans of more than 25 years and addresses issues of performance degradation, thermal runaway, and product reliability and safety, while being fully recyclable at end of life.

Is vflowtech a safe & environmentally friendly battery?

With a 25-year expected lifespan, VFlowTech has one of the safest and most environmentally friendly battery technologies. VFlowTech was incubated in the CleanTech lab of Singapore's Nanyang Technological University, and benefits from unique IP arising from many years of intensive research at the university.

What does an IoT Cloud intern do at vflowtech?

As an IoT Cloud Intern at VFlowTech, you will be working on developing IoT products and solutions for our energy-storage devices and smart grid.
